TO WHOM IT MAY CONCERN

Our experience in working with iWoWSoft Human Resource Management System over the past two years had been truly satisfying and it's feasible in providing sufficient information for fulfilling our business needs.

This system is user friendly in term of its easy steps to follow especially for new users and it has really helped us streamline of our administration and processes in higher level of our HR Department.

The technical team at iWoWSoft has been very responsive both in providing support when required. We are hoping that iWoWSoft will continue in receiving our feedback and implementing solutions for improvement that would benefit us and their potential clients.

We are pleased to have chosen iWoWsoft and thank you for their support and expertise throughout the years.

Thank you.

Yours faithfully
